

# Drawing the Graph of a Pattern

## Quick Review

Here are some ways to represent a pattern.

- Model the pattern on grid paper.

Figure 1      Figure 2      Figure 3      Figure 4

- Make a table.

Figure Number	Number of Squares	Ordered Pair
1	5	(1, 5)
2	6	(2, 6)
3	7	(3, 7)
4	8	(4, 8)

- Draw a graph.

## Try These

1. Henry made this pattern.

Figure 1      Figure 2      Figure 3      Figure 4

- a) Complete the table.

Figure Number	Number of Squares	Ordered Pair
1	2	(1, 2)

- b) Graph the pattern

## Practice

1. a) Describe the relationship shown in the table.

<b>Figure Number</b>	1	2	3	4	5
<b>Number of Squares</b>	1	3	5	7	9

\_\_\_\_\_

\_\_\_\_\_

- b) Draw squares on the grid to model the pattern.

- c) Graph the pattern.
- d) How many squares are needed for Figure 10?

- e) Which figure has 29 squares?
- f) Which figure has 51 squares?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

2. Draw a pattern to model the data in the table.

<b>Figure Number</b>	1	2	3	4
<b>Number of Triangles</b>	1	2	4	8

## Stretch Your Thinking

Use the table in question 2.

How many triangles are in Figure 10? \_\_\_\_\_

Which figure has 8192 triangles? \_\_\_\_\_
